

ISES/JSES Joint Session

“RE100 in the world and Japan”

Date & Time: 10:00-12:00, Tuesday, 19th June 2018
Room: Room 315, 3rd floor, Conference Center, Pacifico Yokohama
Organizers: International Solar Energy Society, ISES Japan Solar Energy Society, JSES
Language: English

Intent and Outline:

The International Solar Energy Society, ISES, and the Japan Solar Energy Society, JSES, will provide information on an energy transformation to 100% renewables, RE100, during this joint session at GRE2018.

The Cancun (2010) and Paris (2015) Agreements are milestones in the history of our planet. They commit all countries, developed and developing, to work together using scientific knowledge and technological innovation to limit the global temperature increase to 1.5 degrees Celsius.

ISES and JSES expect that technological innovation with the scientific background will enable these agreements to be satisfied and that, in the process, the world can achieve a transformation to 100 % renewable energy.

Program:

Chair: Prof. Haruki Sato, Keio University

10:00 - 10:05 Opening Address, JSES President
10:05 - 10:30 'RE100 in the world'
Dr. Dave Renne, ISES president
10:30 - 10:55 'RE for the energy-mix in Japan'
Prof. Takao Kashiwagi, Executive Advisor of GRE2018
10:55 - 11:25 'How can companies procure renewables in Japan to achieve RE100?'
Mr. Sam Kimmins, Head of the RE100 and Dr. Kae Takase, CDP

Worldwide-Japan

11:25 - 11:45

'RE100 in Fukushima'

Governor of Fukushima-prefecture (to be substituted by someone)

11:45 - 11:55

'Summary from ISES'

Dr. Dave Renne, ISES president

11:55 - 12:00

Closing Address

Prof. Atsushi Akisawa, JSES vice-President
